

Masque VISOLASTINE +

Long-lasting hydrating face mask

INITIALIZATION STAGE

Recommended for dehydrated and severely dehydrated Skin Instants®.

DEHYDRATED AND HIGHLY DEHYDRATED SKIN INSTANTS®

Hydration remains the most important outcome of a facial treatment. Water is the human body's main component. The dermis is the genuine backbone of the skin and its greatest water reserve. Part of this water is mobilized and diffuses naturally in the epidermis.

Dehydration is caused by two main factors.

First, a **failure** in the **hydrolipidic film** of the epidermis **alters the skin's barrier function** and leads to excessive water evaporation. Inclement weather and use of overly aggressive skin care products can weaken this natural protection. They make the skin more vulnerable to external attack and skin aging.

Finally, **natural moisturizing factors** (NMF) capture and retain water in the skin and thus maintain the ideal level of hydration. With age, the number of NMFs declines and their ability to retain water decreases.

Dehydrated Skin Instants® are prone to sensations of discomfort and tightness as the skin loses its elasticity and softness. Dehydration is also a genuine gateway for wrinkles. The complexion becomes dull, dehydration wrinkles appear in fragile areas such as the eye contour and the skin lacks suppleness.

BIOLOGIQUE RECHERCHE'S SOLUTION:

Masque Visolastine + is a complete natural solution that offers **immediate and lasting skin hydration**. It **boosts hydration in the upper layers of the epidermis** and **strengthens the skin barrier** to protect against dehydration. Its long-lasting moisturizing action provides soft, comfortable skin for the entire day. The hydration rate of the skin increases by 16.1% after 4 hours and by 11.8% after 8 hours for only 1 application.

Actions*

- Reduces transepidermal water loss
- Protects the skin barrier
- Restores the hydrolipidic film and the epidermis

Results*

- Immediately and durably moisturizes the upper layers of the epidermis
- Protects against dehydration
- Provides a sensation of comfort and softness

**According to a test measuring hydration conducted by an independent test laboratory using corneometry after a single application on 10 volunteers aged between 18 and 70 years.*

A CONCENTRATE OF MOISTURIZING, PROTECTIVE AND LIPID-RESTORING ACTIVE INGREDIENTS:

Moisturizing active ingredients: Plant-based Polysaccharides from Natural Origins, Natural Moisturizing Sugar Complex, Hyaluronic Acid and Rhizobium Complex.

Protective active ingredient: Vitamine E

Lipid-restoring active ingredients: Macadamia Nut Oil, Cotton Oil

RECOMMENDED USE:

On the entire face, neck and décolleté

Apply a thin layer of Masque Visolastine + to the entire face, neck and décolleté. Leave on for 15 to 20 minutes and rinse with lukewarm water.

PRECAUTIONS FOR USE:

Avoid contact with the eyes. External use only.
